Hello. And thank you for considering this catalogue of fine design products to better enhance the performance of your project! The quality items within are the result of 15 years of impassioned building, undertaken in the highly-competitive framework of television and film production. During that time, I've been privileged to lend my effort to such hit shows as: *Schooled*, *Penny Dreadful*, *The Mindy Project*, *Hogan Knows Best*, and the award-winning *Will & Grace*. I approach each new venture by trying to find the untold story within the details — naming an impromptu band, refining a piece produced art, or building billboards for the deepest background. No matter the challenge, I work to maintain the same earnest, rolled-up-sleeves approach that I learned from my family. It's a philosophy that continues strengthen my life and work and, I hope, enriches your project as well. For more, please visit my full portfolio of produced work at www.monsterdaddygarage.com.
