Hello. And thank you for considering my quality service to enhance the performance of your project! Originally from the Midwest, I'm a Los Angeles-based designer with a specialization in production graphics & art direction for filmed and live entertainment. As I'm sure you can tell, I'm pretty committed to the bit.

My craft and experience were honed over two decades in this highly-competitive environment, beginning with a project launch team at Walt Disney World, and continuing through turns on such hits as: *The Morning Show*, *Schooled*, *The Mindy Project*, and the award-winning *Will & Grace*. If you'd like to learn more, please have a look around my website. The shop is nuthin' fancy, but the work is honest and the parts are all original!

AVAILABLE FEATURES
