COMMERCIALS: Stylist and Art Director of over 50 commercials

EDUCATION: Northwestern University, and all the Designers, DPs, Cinematographers, Directors and creatives I have had the honor to work with.

ART: I paint figurative, landscapes and abstracts. While I predominately work in acrylic, I also love to do pencil and charcoal sketches.

With over two decades working in the art department for film and episodic, I have learned to maximizing my designs to ensure that our efforts are focused on what will be seen on camera and to adapt those designs as the project develops. While developing a color pallet to help set the mood and help tell the story, I also use texture to help define the character and their development. I work passionately and collaboratively with the DP, Director, the project creator and producers to bring the dream to fruition.
