

# Updated ADG Blotter

[John Moffitt, Associate Executive Director]

Patronizing non-union set construction shops it takes work away from union members who pay dues for the right to work under a union contract--union jobs are lost and union benefits go unpaid. This not only erodes this Local's standing in the Hollywood labor community, it undermines the union labor movement as a whole.

*Whether it's for set construction and painting, signage and graphics, props and set pieces or scenic backdrops, give the union facilities your business.*

Please contact me ([John@artdirectors.org](mailto:John@artdirectors.org)) with any questions or concerns and thank you for your cooperation here.

*Below is a list of signatory shops in the Los Angeles area to use for your custom fabrication needs:*
