# THE PERSISTENCE OF CONCEPTION A REVERIE

by *Kamilah*

THE  
PERSISTENCE OF  
CONCEPTION  
A REVERIE is a work that  
explores the relationship between  
gender politics, copycat violence, and  
the protective shells we find ourselves in as  
we grow, mature and search for meaning.

With influences as diverse as Caravaggio, Francis  
Bacon and Miles Davis, new variations are distilled from  
both mundane and transcendent structures.

Ever since she was a young woman KAMILAH has been  
fascinated by the unrelenting divergence of the moment. What  
starts out as hope soon becomes corroded into a carnival of lust,  
leaving only a sense of failing and the unlikelihood of a new  
beginning or a satisfying ending.

As momentary replicas become distorted through diligent and repetitive practice, the viewer asks which came first? KAMILAH or her ART? *A CONCEPCIÓ ELTÉRÉSE A REVERIE olyan munka, amely feltárja a nemi politika, a copycat erőszak és a védőhéjak közötti kapcsolatot, ahogyan növekedünk, érettünk és keresünk jelentést.*

A Caravaggio, Francis Bacon és Miles Davis változatos hatásaival új változatokat desztillálnak a világi és a transzcendens struktúrákból.

Amióta fiatal nő volt, KAMILAH lenyűgözte a pillanat áttevő divergenciája. Ami a reménységből indul ki, hamarosan a vágy karneválába hullik, ami csak egy hiányzó érzést és egy új kezdet vagy egy kielégítő véget nem jelent.

Ahogy a pillanatnyi másolatok szorgalmas és ismétlődő gyakorlattal torzulnak, a néző megkérdezi, hogy melyik volt először? KAMILAH vagy ART?
