

THE
CHRISTMAS
CHRONICLES
THE RETURN OF BELSNICKEL

“Christmas Chronicles 2” continues the story of Kate Pierce, the “true believer” from the first film who is now a disgruntled teenager. Kate finds herself back in the North Pole with Jack, the son of her mother’s new boyfriend. Together, they help Santa and Mrs. Claus restore the Christmas Star, which powers the entire village, after it has been stolen and destroyed by a renegade elf named Belsnickel.

The film explores Santa’s world at the North Pole – his village, workshops, home, and reindeer stables. Kate and Santa must journey across the Aurora Borealis to Turkey, where they seek the help of the ancient forest elves who created the original star.

In the end, they race Belsnickel to restore the magic of Christmas, and teach Kate about the value of family and the enduring power of love.

“In addition to the human stars, Jon Hutman’s production design is a star unto itself with a gorgeous vision of what Santa’s Village might look like at this point in his existence.”
