Aardman Mothership - Sheet 06

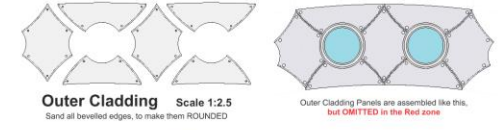

15th August

HIPS Cladding

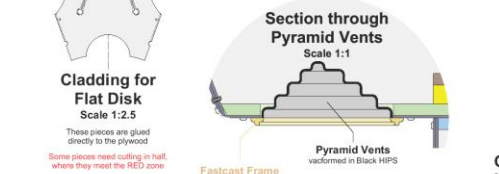

The Upper Conical Structure is clad with TWO layers of 2mm HIPS:

These two CNC'd rings of Black HIPS are glued together to make a master frame, as shown on the right.

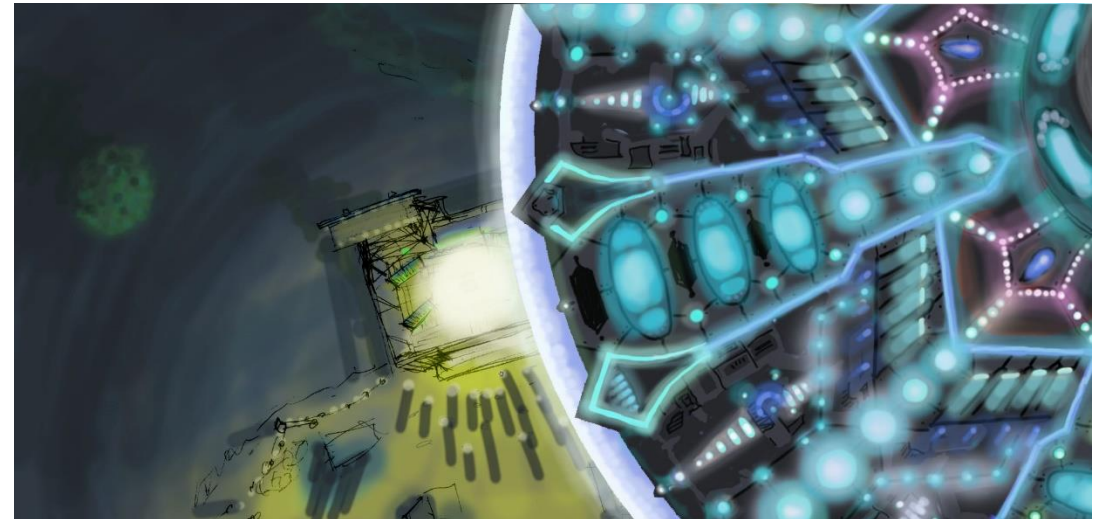

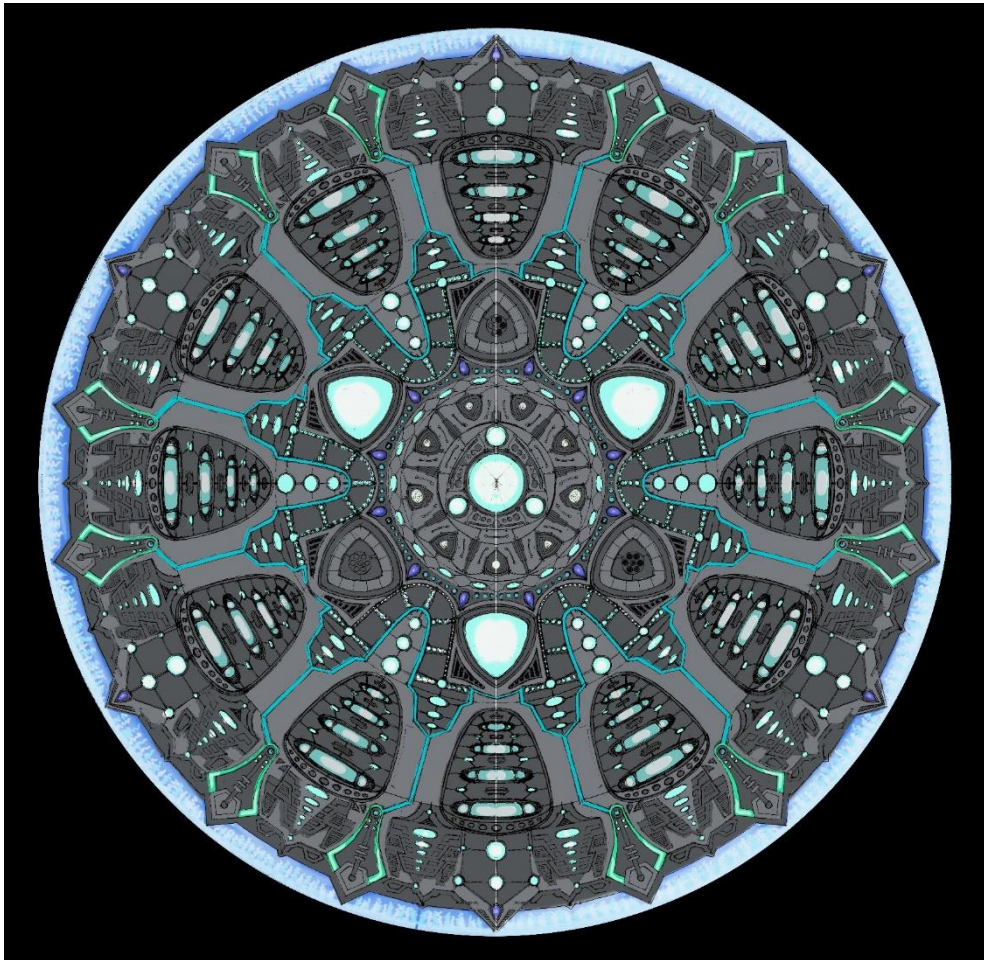

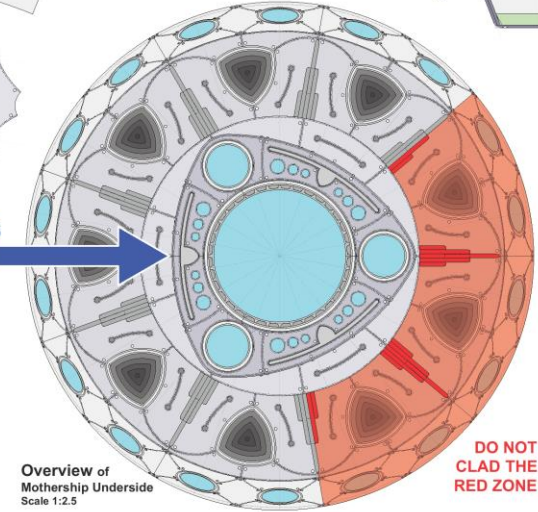

Parts have been CNC'd with a bevelled edge, shown by dashed lines, for CNC'd HIPS to give well rounded edges, like this:

Some pieces need cutting in half, where they meet the RED zone

Fastcast Frame vents shown inside as that for the Louvered Vents - see Sheet 07

DOORS THIS SIDE

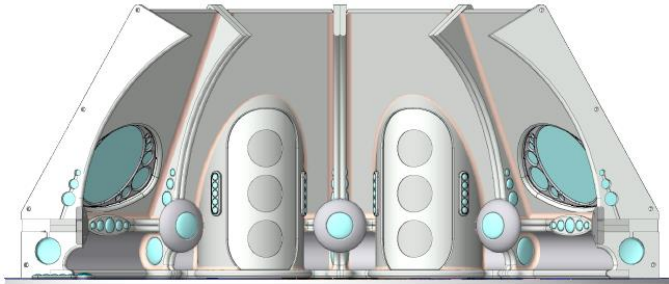

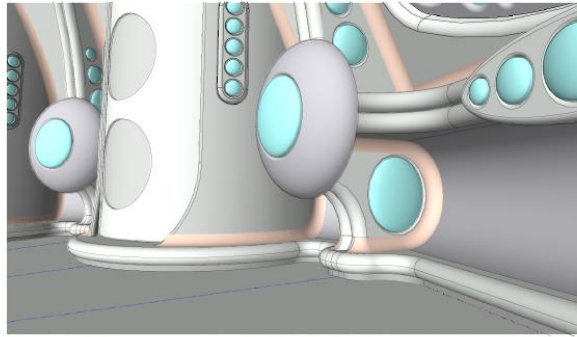

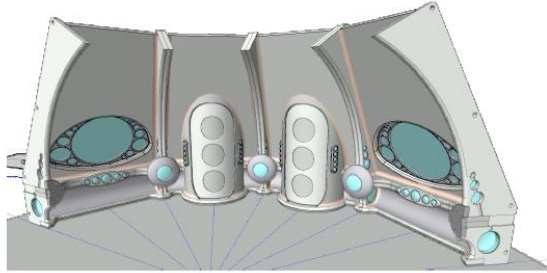

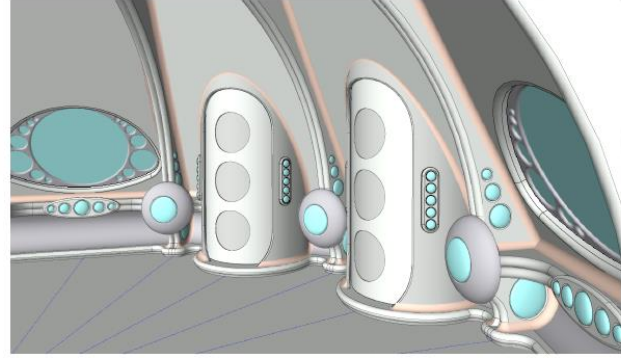

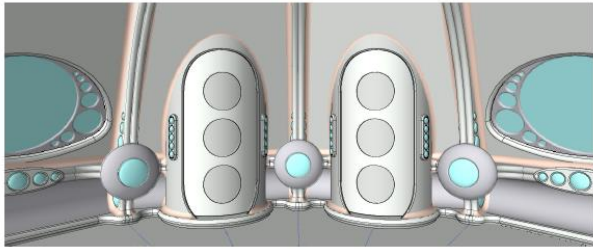

THE MOTHERSHIP

FARMAGEDDON

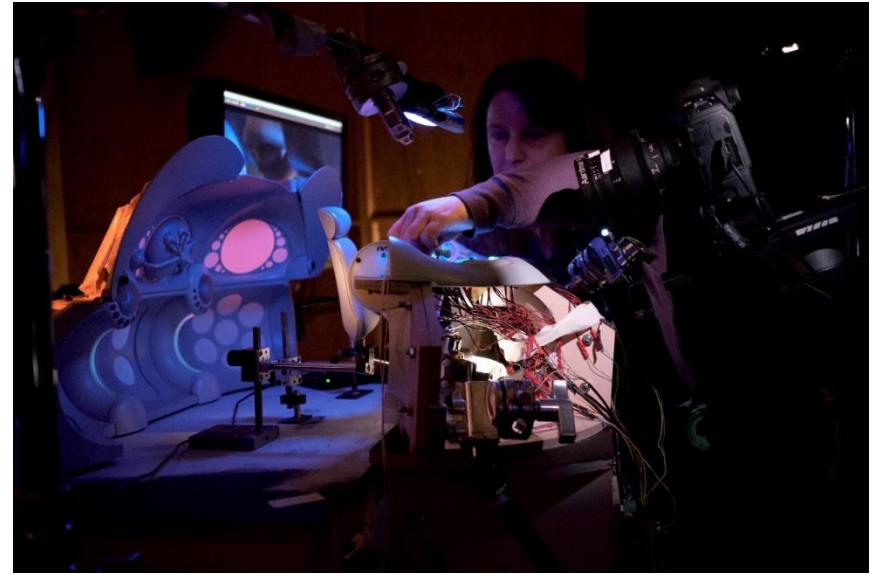

STUDIOCANAL

Aardman

Blue indicates elements which could be made to glow, if requested.

Pink indicates body filler along all internal corners, with a 9mm radius from the mixing sticks.
