THE CROWN

Season 5 Episode 6

IPATIEV HOUSE

Moving through time and travelling continents, Episode 6 of The Crown's fifth season takes the audience to Russia in 1917, to the streets of London at the end of the First World War, to Sandringham in 1918 and 1995, and to Moscow in 1994. With over fifty sets, around forty of them new to the show, the farthest the crew travelled from its base at Elstree Studios was a four-hour drive to North Yorkshire.

What follows is a selection of drawings and photographs to illustrate how this was achieved.
