# RABBIT/HOLE

ROCCO MATTEO

<production designer>

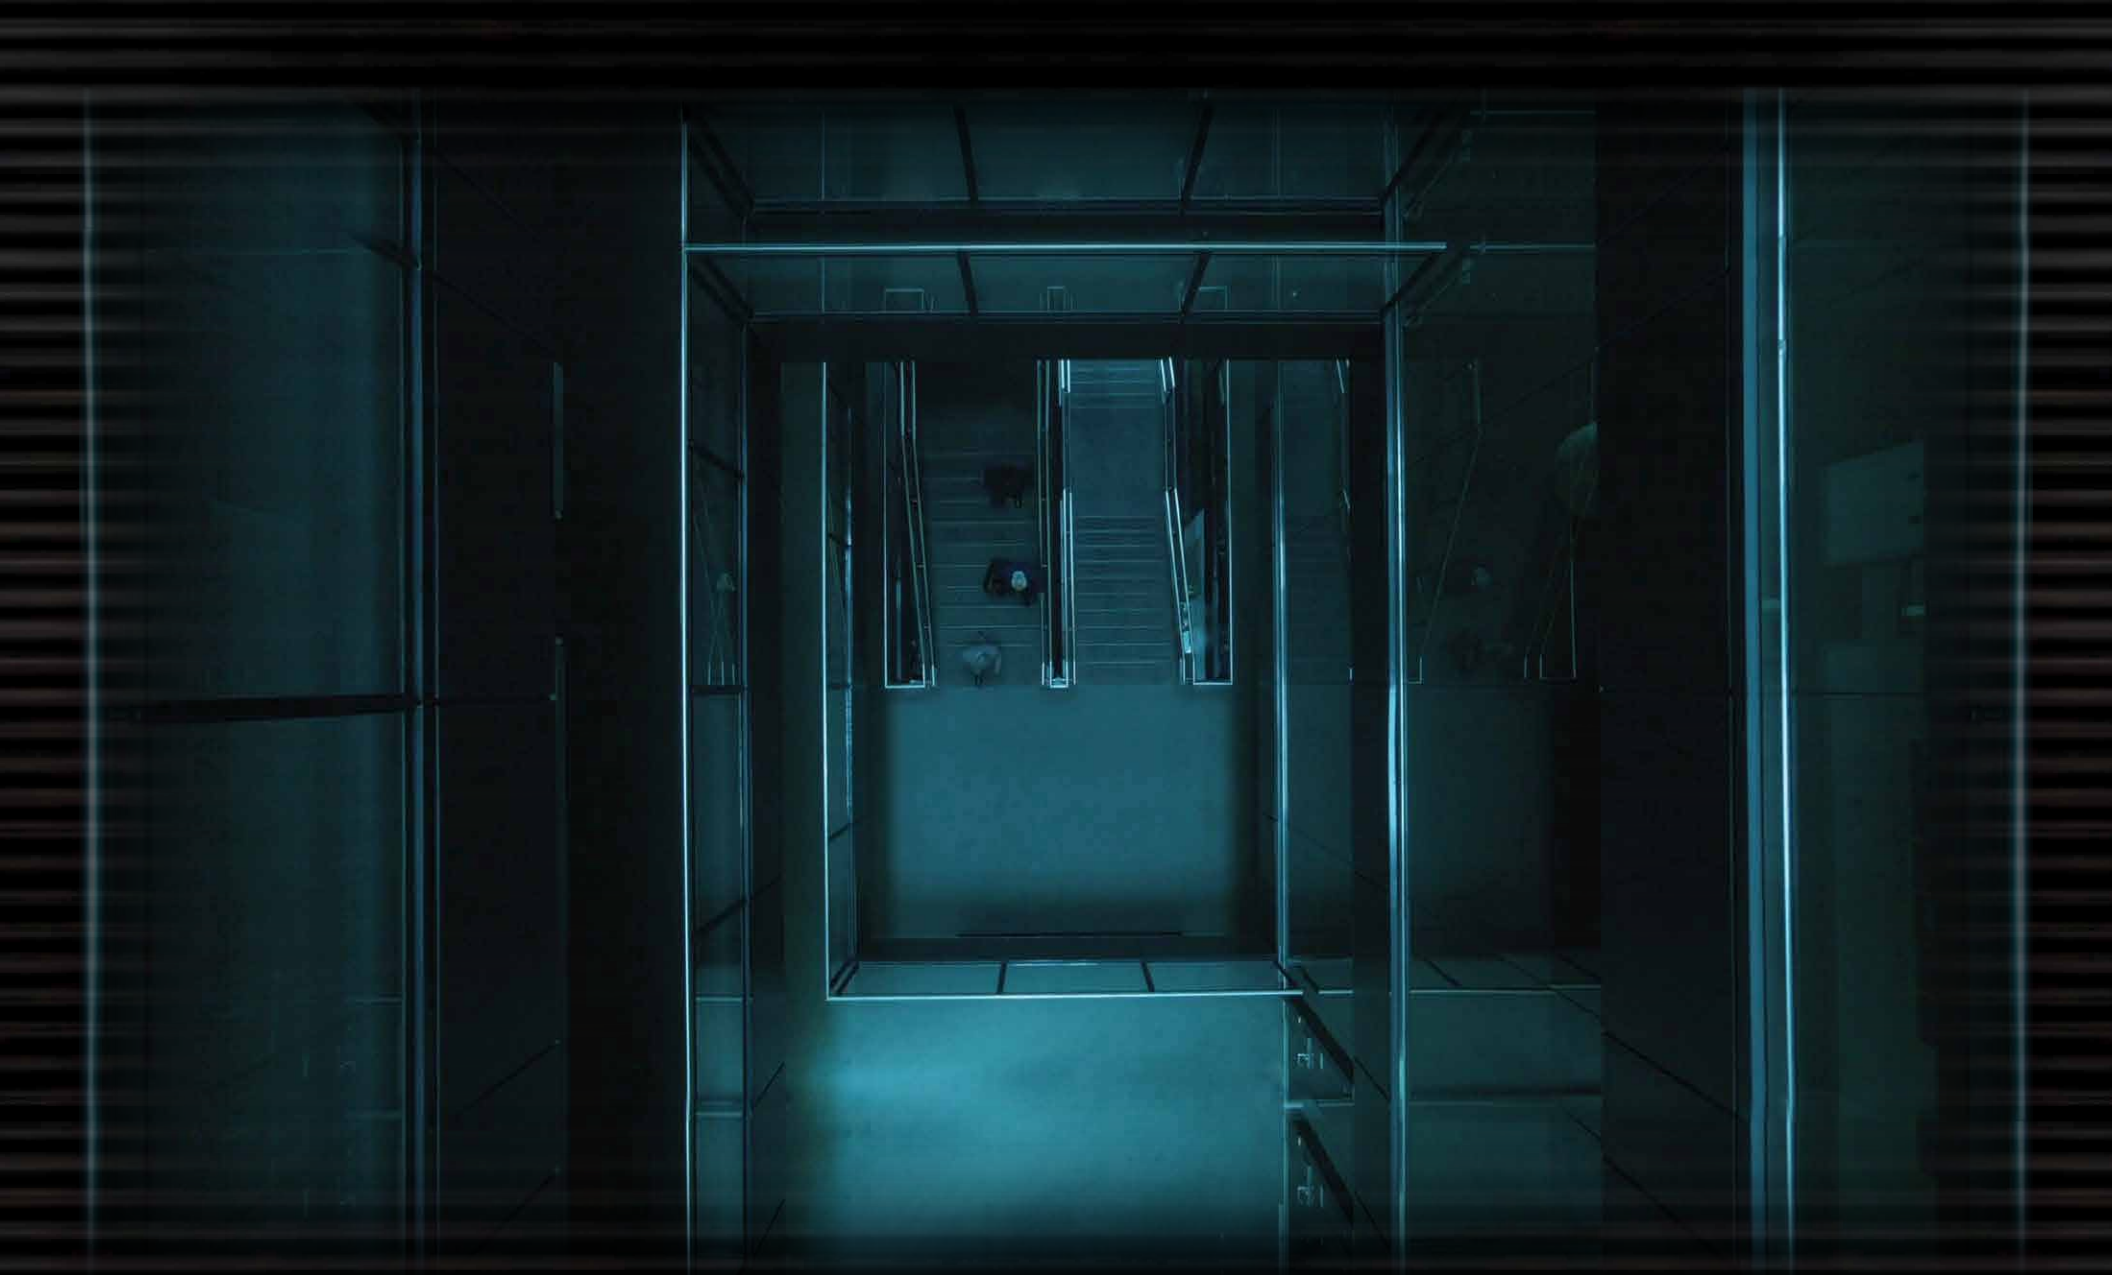

The world of Rabbit Hole posits a world where Security is delivered to everyone through technology & the management of data in exchange for all personal information to be managed by corporate entities.

A futuristic office interior. In the background, a woman with blonde hair is seated at a long, curved white desk, working on a laptop. Behind her is a large wall display showing a complex network of blue lines and data points. In the foreground, a man in a dark suit is walking from right to left, partially obscuring the view. The wall behind him is a solid dark blue and features the 'arda analytics' logo and the text 'AN INTAVERSE MEDIA COMPANY' in white.

**arda analytics**  
AN INTAVERSE MEDIA COMPANY

These Corporations can include various member companies that provide services that can help run all aspects of life. ARDA analytics is one such company while DBA advisors exists at the opposite end of the spectrum.

Our individual personal space now extends into the digital sphere across the Apps and Programs we use. The expanding Cyber world or Meta is housed in the new-age machine Architecture of glass and steel where materiality meets the ephemeral in an ongoing evolution of the urban landscape.

## 1550 GIRARD LOBBY/VAULT

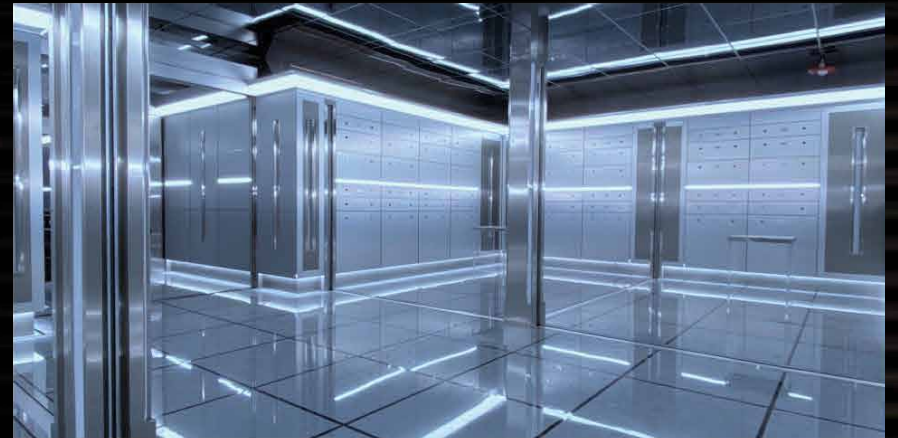

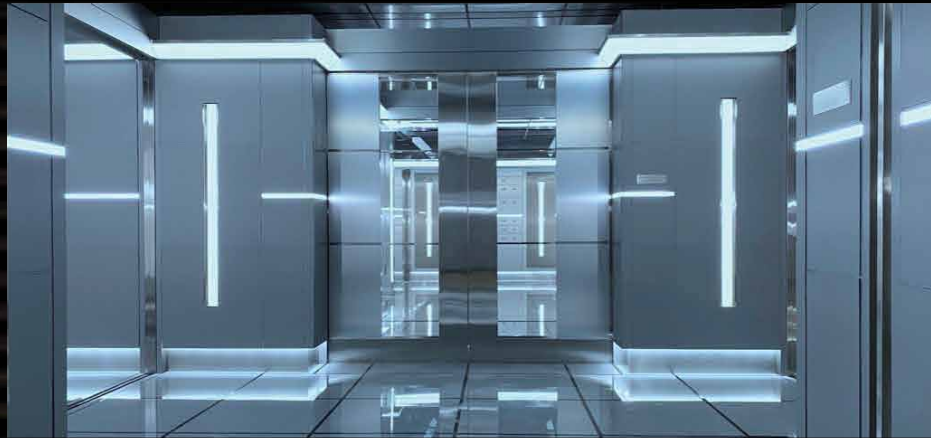

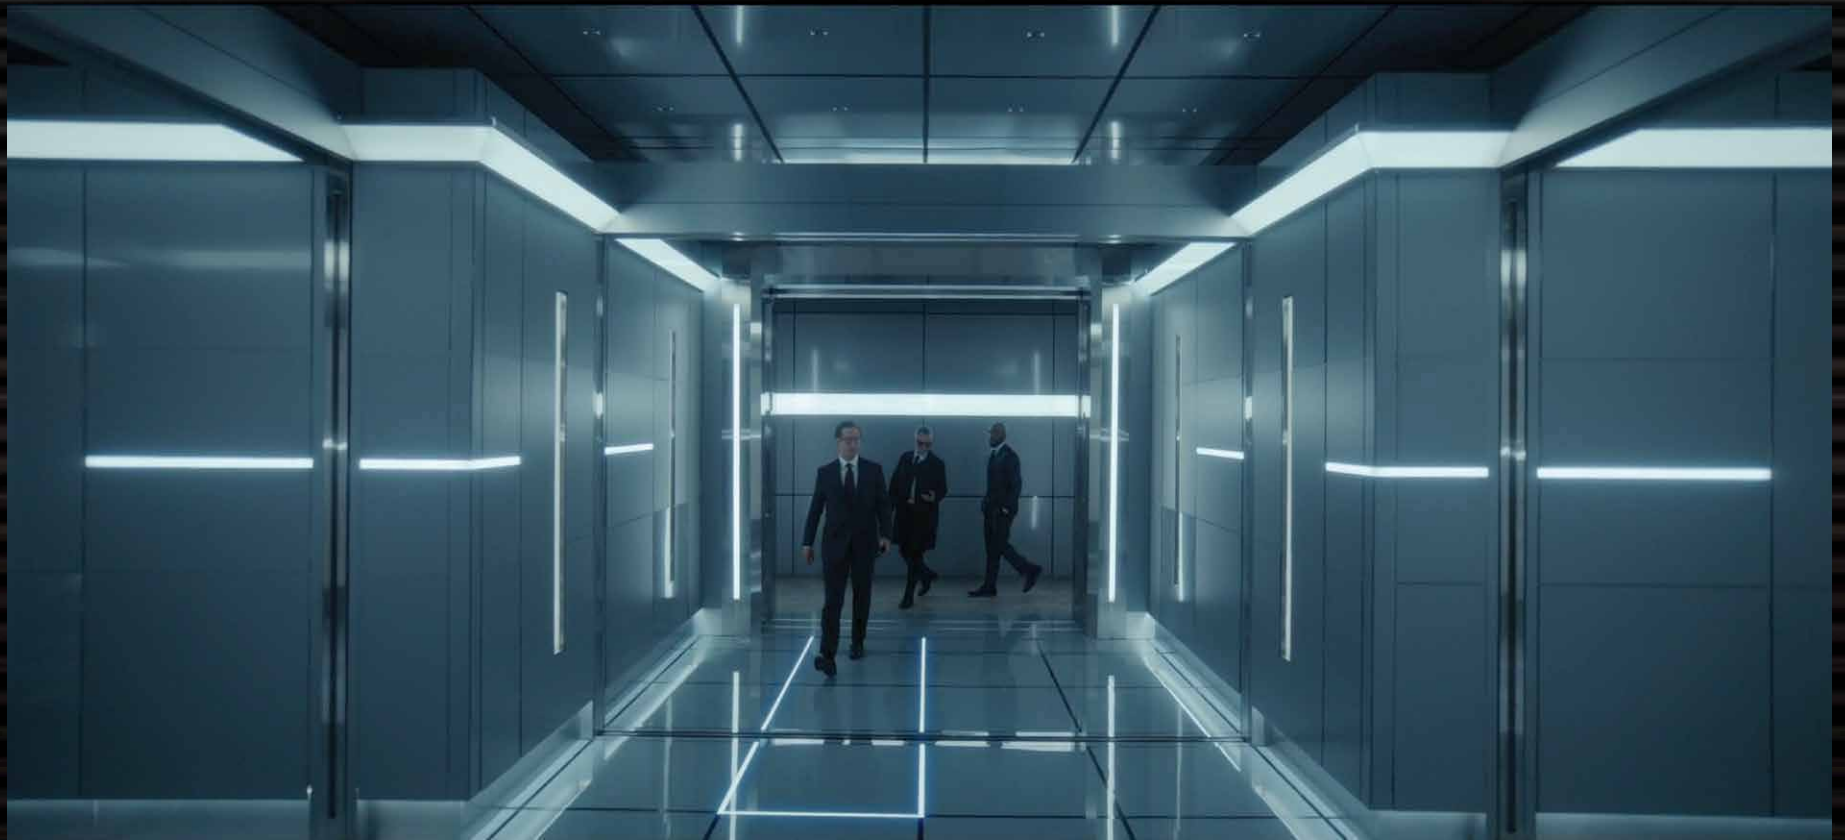

1550 GIRARD is a new kind of digital fortress designed to secure valuables to discerning clients who crave anonymity.

Security Check-in

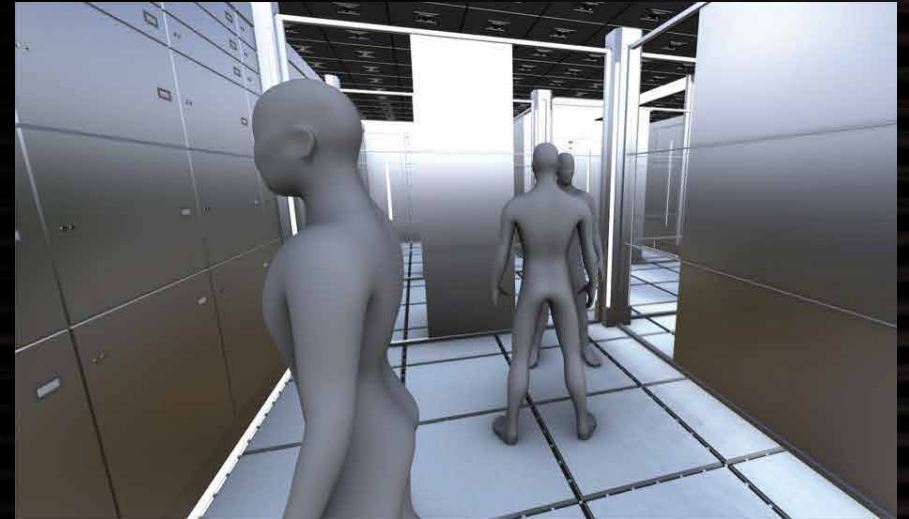

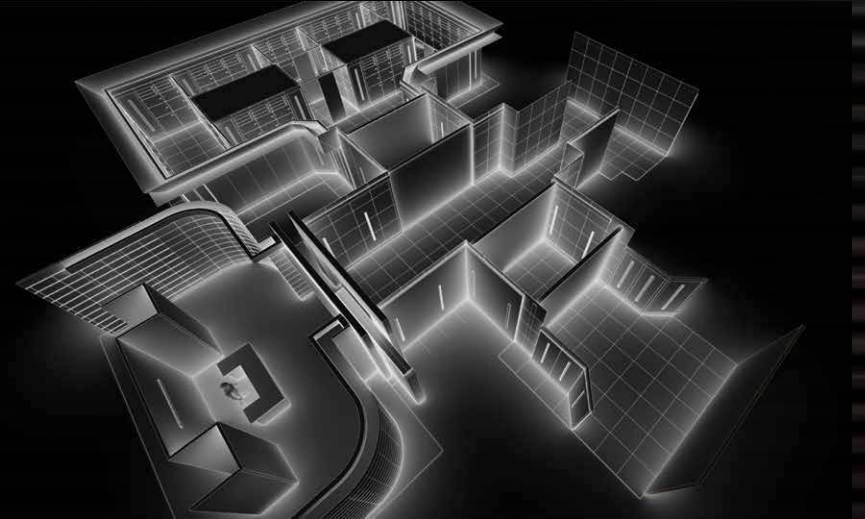

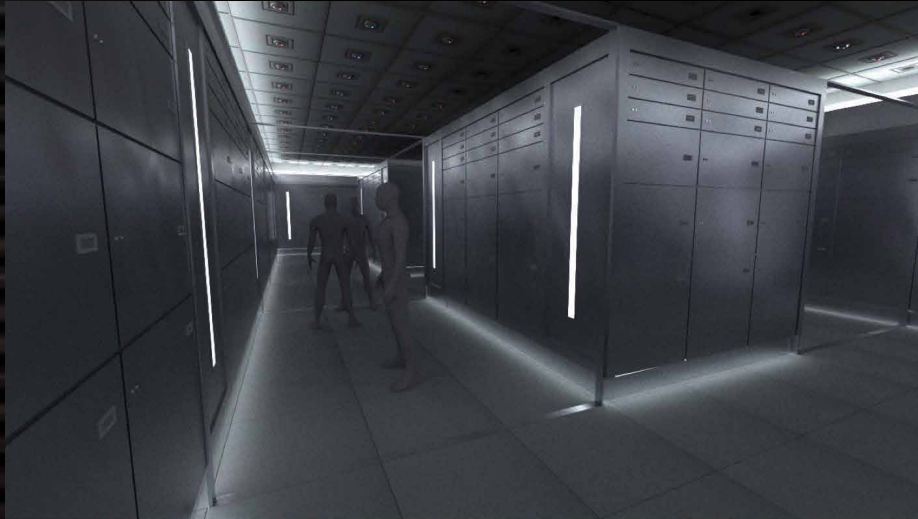

Hallway into vaults / Active grid tracking

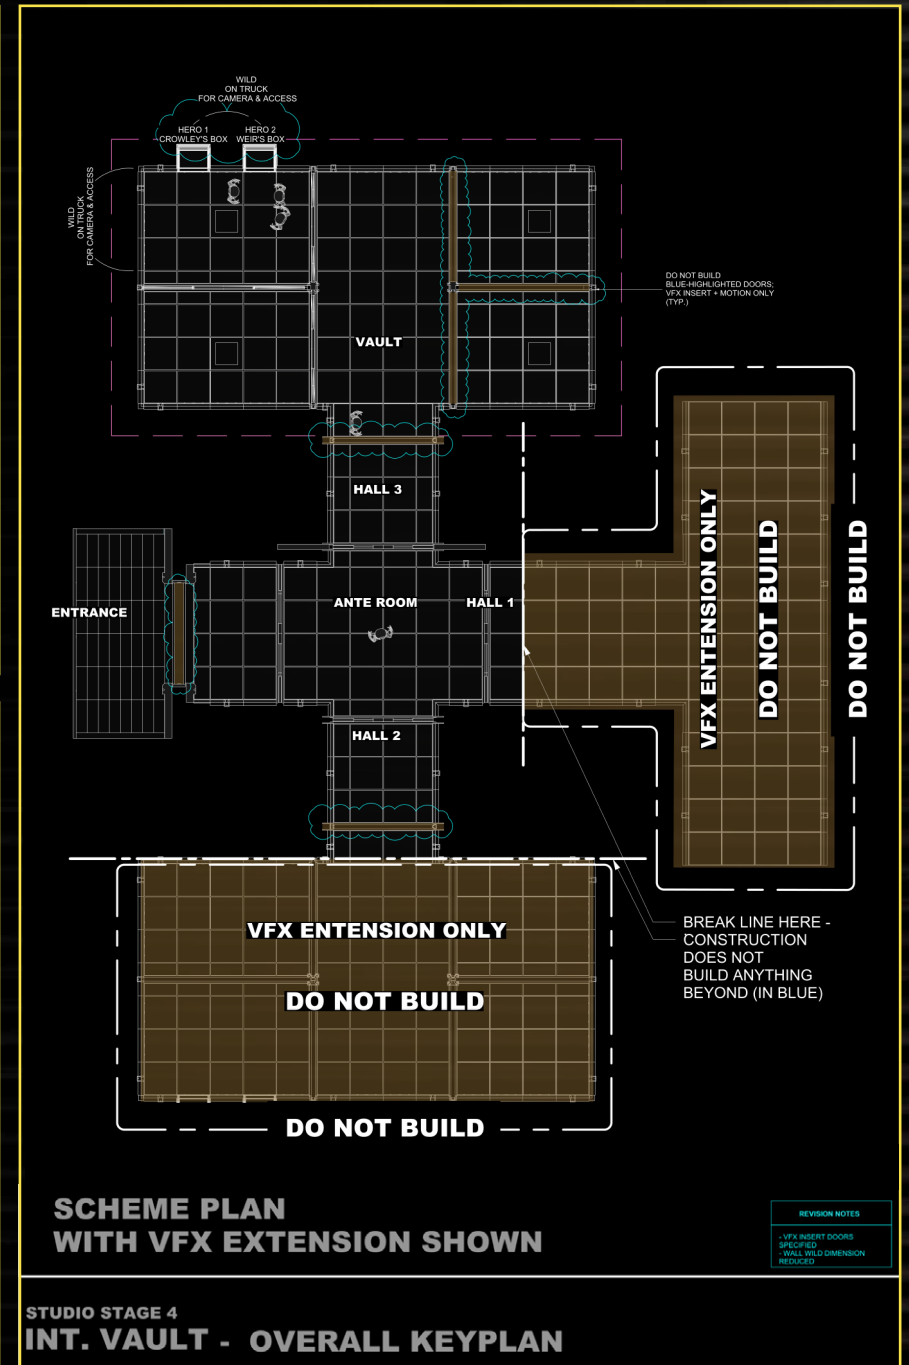

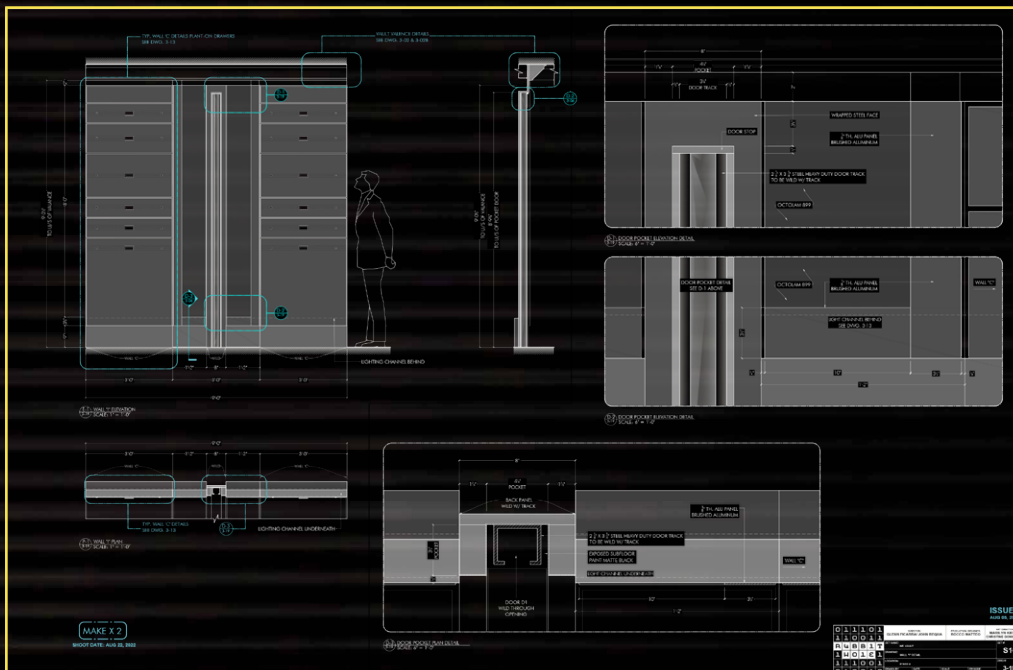

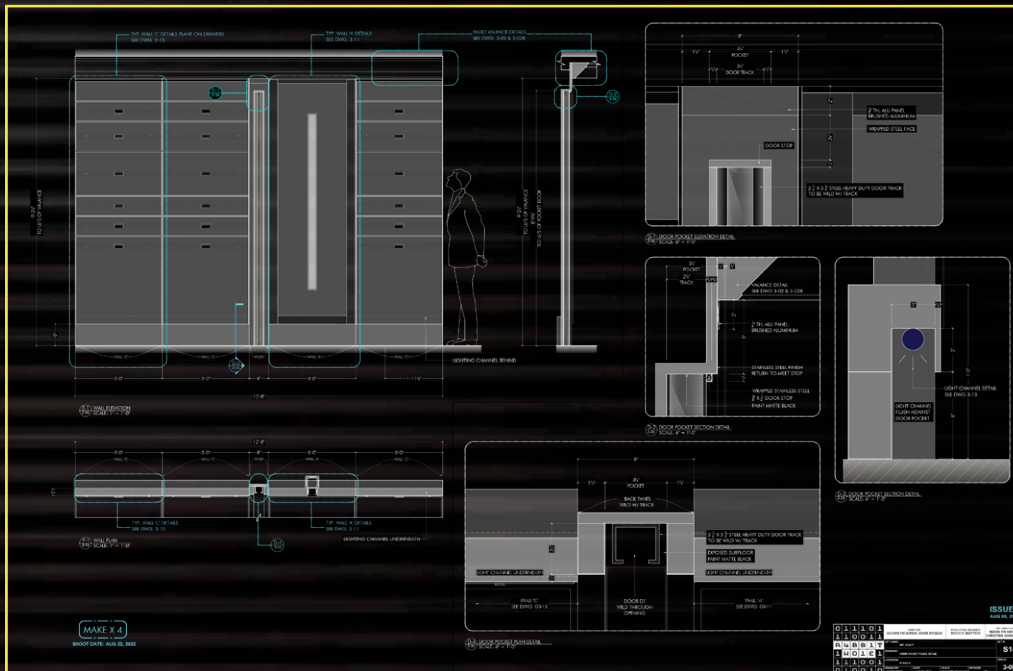

Vault Chamber

3D Grid Module

Lock down activated

## HIDING IN PLAIN SITE/SIGHT-SAFEHOUSE

This unfinished office building serves as a temporary SAFEHOUSE using the obscuring drape of dropsheets to hide in a fishbowl. The open, incomplete ceiling grid is the antithesis of the vault and exposes services they tap into

Observing campaign progress

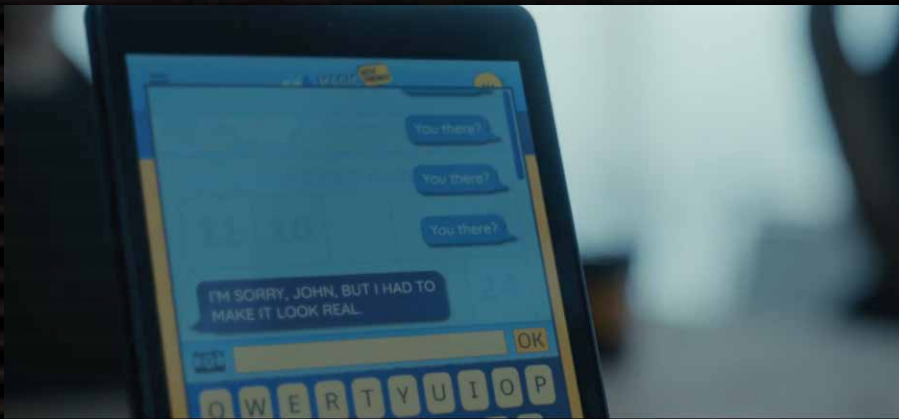

Planning vault heist

## CYT023

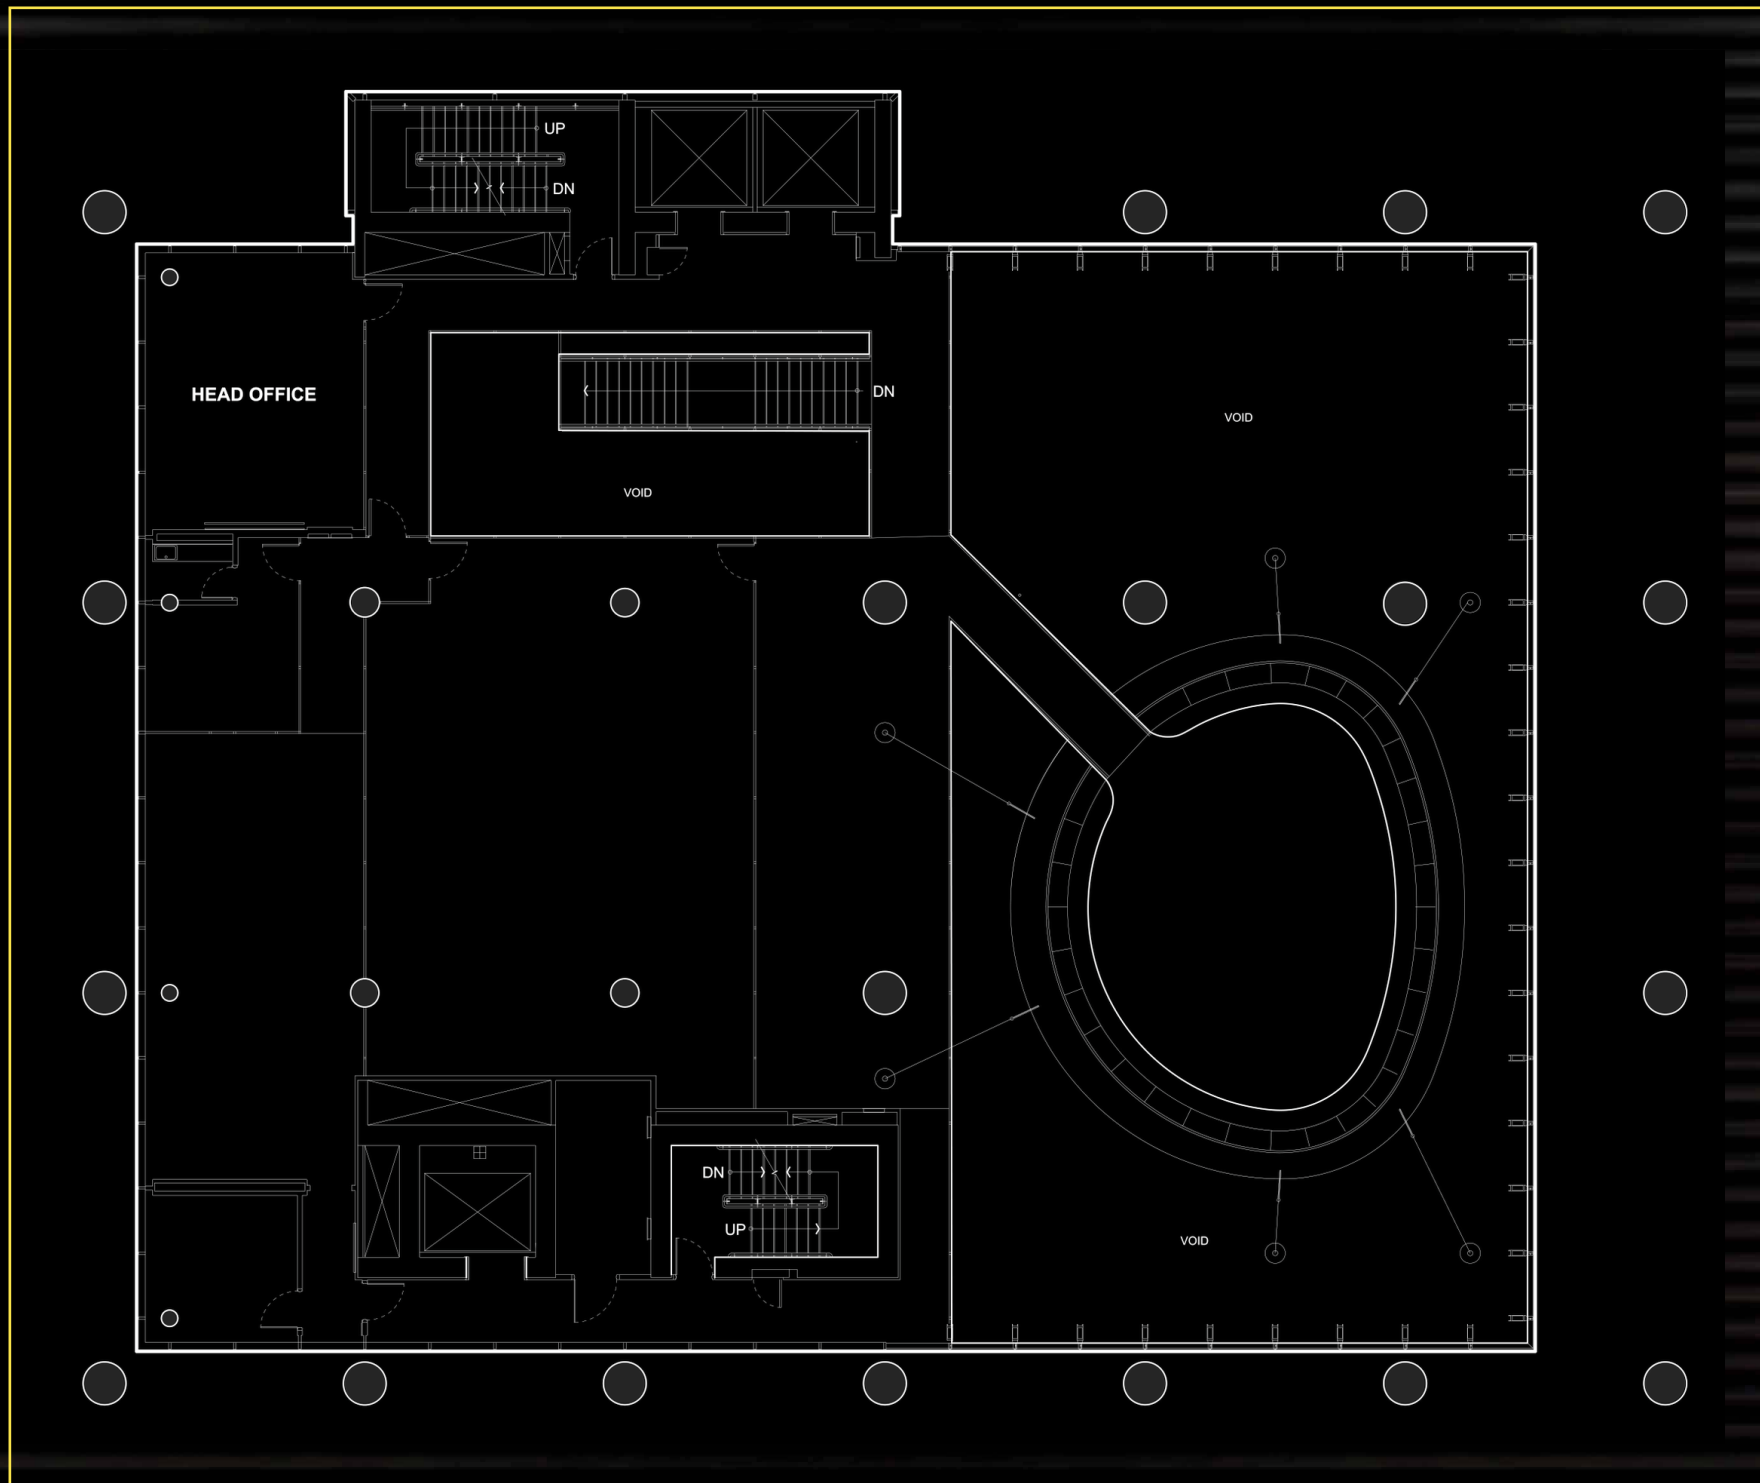

CYT023 is a corporate umbrella company where digital and physical information is collated and identities are stored. A symbolic nerve centre and collective brain.

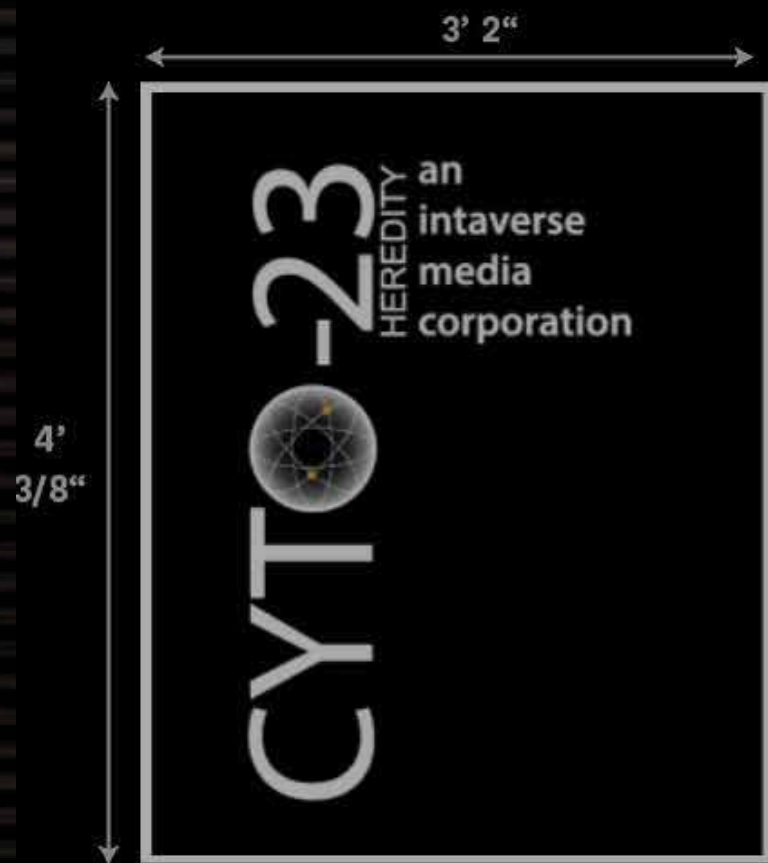

## ARDA

ARDA corp is a member company that processes and manages data and provides a physical and virtual oversight to information networks. Seemingly benign, collegial and transparent, the digital hub is a showcase of co operation and security. Or is it?

Arda Digital Analyst floor

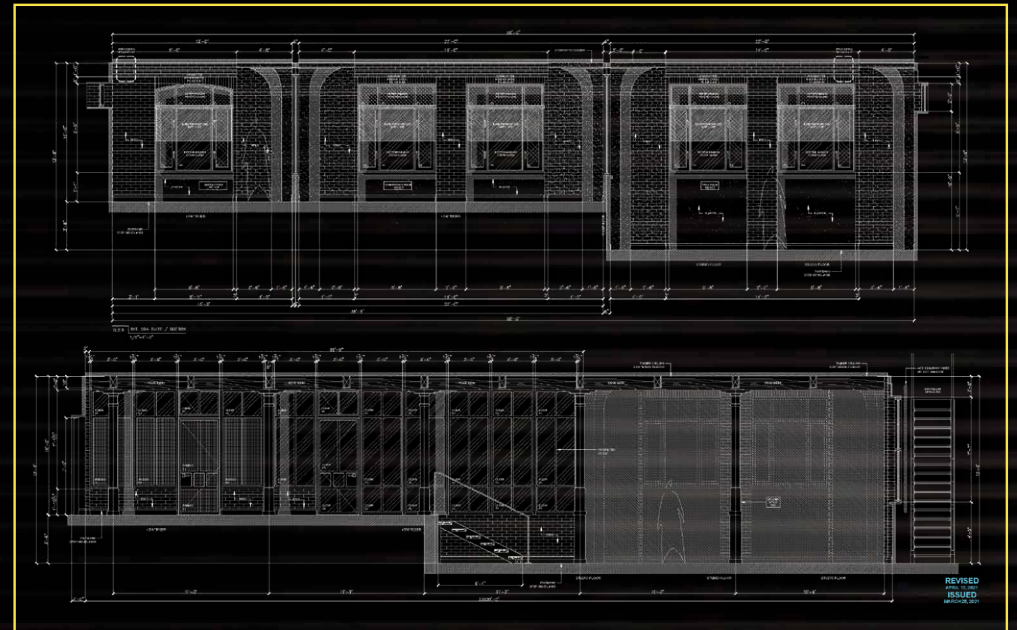

## DBA ADVISORS

DBA is a media consulting firm that helps inform traditional players and companies deal with managing information in the new digital media space. It offers a grounded experience to clients with a traditional connection to the city and familiar life on the street

The old materiality of bricks and mortar, of heavy wood and hand made surfaces becomes more derelict and relegated to secondary uses. Disconnected from new networks and diminishing in visibility, they provide temporary accomodation for weir and his associates.

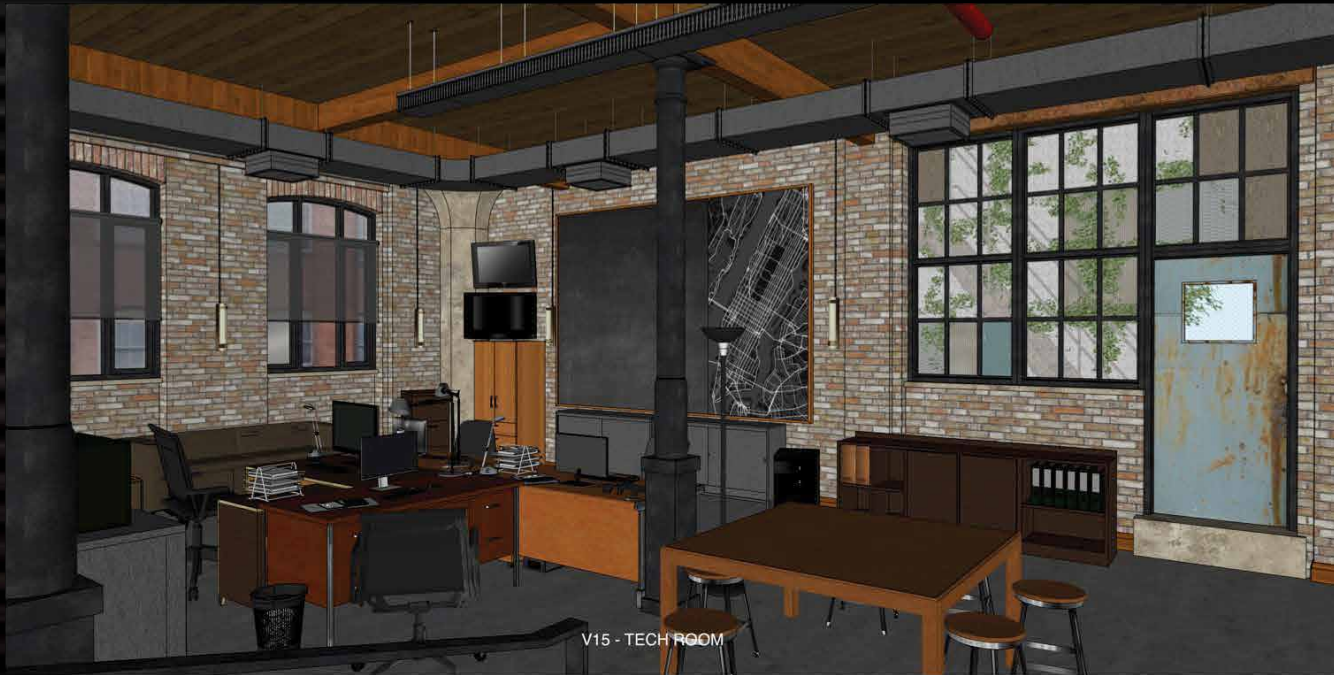

Backdrop Stitches - WIP (108' x 22')

DBA spawned ARDA and associates as its corporate nemesis but ultimately its secret partner in a long game.

Behind his role in DBA, Weir has a personal mission to disrupt the new agents of misinformation

V13 - CONFERENCE ROOM

Security gives way to destruction, both imagined and real.

## CENTRAL AMERICAN APT

Weir's Dad and Crowley as former CIA handlers dispose of spent assets. Partners to become adversaries.
