SCALE: 1:25

Generic 3D model!
Általános 3D model

Edge details of rostrum!
Rámpa perem részlete (1:10)

Rough lidar scan!
3D szkennelés - elmosódó élek

Location photos - finishes to follow
Helyszínfotók - követendő textúrák

GENERAL NOTES:
-Recreate original location details in studio with texture and finish identical to the Ribac Villa.
-Create sloping rostrum and steps strong enough for actors and car.
-Build practical steps for actors and crew access on the back side of rostrum.
-After discussions with greens department create the necessary space in structure for pods where plants and trees need to be installed. (TBD)
-Eredeti helyszínről egyedi kinézetű díszlet létrehozása stúdió környezetben.
-Lépjáró dobogó kialakítása annyira erős autót, felülre kivehető murvás talajjal kitöltendő.
-Munkaközpont a stábnak és a színészek számára.
-A greens részleggel való egyeztetés után a növények fák típusai számára megfelelő belvárosi forma kialakítása a szkennerben.
-59m2 surface area of rock walls
-a rakott kőfalak felülete
-117m2 surface area of brick steps
-tégla járólépcső felülete
-10m2 surface area of sloping rostrum
-fehérített aszfalt felülete (alaptextúra: építészeti)
-7 murvás földes rétege felülete (alaptextúra: építészeti)
