THE STORY

KEMBA'S STORY

Based on the true story of criminal justice reform advocate Kemba Smith, who fell in love with a drug kingpin as a college student and hurtled down a dangerous path with life-changing consequences.

KEMBA'S ROOM

01

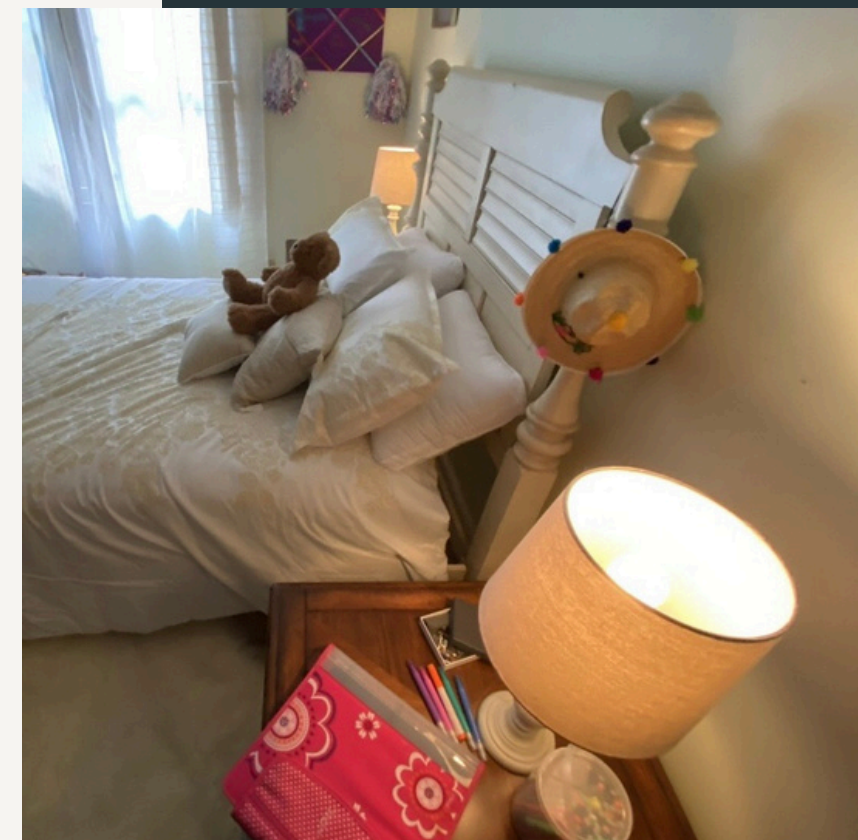

The innocence of Kemba's youth, visible in her bright and inviting room, pristine room clashes with the turmoil of her world crumbling around her, and she has to face the results of her bad decisions.

The comforts of home, juxtaposed against the cement block walls, typical design trait of HBCU dorms.

KHALIF'S LOFT-LIVINGROOM

03

Khalif's loft was a total contrast to Kemba's traditional upbringing...a curated art collection, slick and flashy, but still showcased expensive furniture. She was definitely impressed.

PRISON LIBRARY

02

03

This small prison library was Kemba's resource for knowledge. It allowed her and some of the other inmates, an avenue to access knowledge...which often times was their only means to keeping hope.
