VAN NESS DIVORCE PAPERS
REVEAL VAN MESS

LAWYERS' NAMES REVEALED IN COVER-UP

Famously outspoken Chicago team owner Mark Van Ness has been locked in a months-long divorce battle with Pop Star, TruRose. TruRose's team previously claimed the couples' prenuptial agreement was signed under false pretenses. Now, court documents have been unsealed by a Chicago judge to the press supporting these claims. In it, Van Ness's legal team is accused by his former wife, Amber Van Ness, of illegally suppressing a police report she filed against her then-husband for domestic battery. The court documents reveal the names of the lawyers involved in the prior divorce proceedings. Van Ness's team named in the documents include top defense attorneys Carter Schmidt, Leonard Darview, and Elsbeth Tascioni, who once worked with controversial former Governor, Peter Florigick. It is unclear whether or not Van Ness's lawyers will face legal repercussions at this time.
