Project Category: Motion Picture

Project Title: Bridget Jones: Mad About the Boy

Filmed in: U.K

IATSE Agreement: No

Distribution Company: NBC Universal

Project Description:

Renné Zellweger returns to the role that established a romantic-comedy heroine for the ages in Bridget Jones: Mad About the Boy.

Set in contemporary (2025) London, Bridget is alone once again, widowed four years previously, when Mark Darcy was killed on a humanitarian mission in Sudan. She's now a single mother of two young children and stuck in a state of emotional limbo, raising her children with help from her loyal friends and even former lover Daniel Clever (Hugh Grant). Pressured by her urban family, Bridget forges a new path toward life and love.

She goes back to work, and even tries out the dating apps, where she's soon pursued by an enthusiastic younger man. Now juggling work, home and romance, Bridget grapples with the judgement of the perfect mums at school and a series of awkward interactions with her son's rational-to-a-fault science teacher (Chiwetel Ejiofor).
