THE

PITTT

2025
EMMY® WINNER
OUTSTANDING DRAMA SERIES

PLEASE pause and consider...

The sheer scale of the over **22,000 sq ft** meticulously detailed Emergency Department set for **THE PITT** is best understood by visiting in person. Cupping curves, lit entirely by **689 practicals** embedded within the design, enable endless freedom of movement—offering both camera and actor a **fully-immersive** world—allowing **360 degrees** of depth and cinematic possibility.

We are grateful many people believe this is a real space.

- Nina Ruscio
PRODUCTION DESIGNER
