“Rather than serving as beautiful backdrops, the series shows how architecture can evoke memories, identity and optimism that one would expect after having experienced the world of Legally Blonde. Like Elle Woods herself, its spaces are memorable not because they are perfect, but because they are unapologetically true to who they truly are.”

"Through thoughtful production design, Laurin Kelsey recreates not just the aesthetics of the 1990s, but also the emotional experience of growing up in that era."
